Farm Babies

A Cute Coloring Book for All Ages

50 big, simple baby animals, each with a fun fact

THE PAPER RIOT STORE

Welcome to the farm!

Fifty baby animals are waiting for you, from a spotted Holstein calf to a tiny froglet.

The lines are thick and the spaces are big, so it's easy on the eyes and the hands. Color one page or ten. Make the cow purple. Nobody's grading.

Across from each picture is a Fun Fact about that baby. Read it out loud, share it with someone, and give the baby a name of your own.

Happy coloring, Kimberly
