Zoo Babies

A Cute Coloring Book for All Ages

50 big, simple baby animals, each with a fun fact

THE PAPER RIOT STORE

Welcome to the nursery!

Fifty baby animals are waiting for you, from a tiny panda cub to a fuzzy little duckling.

The lines are thick and the spaces are big, so it's easy on the eyes and the hands. Color one page or ten. Make the lion purple. Nobody's grading.

Across from each picture is a Fun Fact about that baby. Read it out loud, share it with someone, and give the baby a name of your own.

Happy coloring, Kimberly

SECTION 1

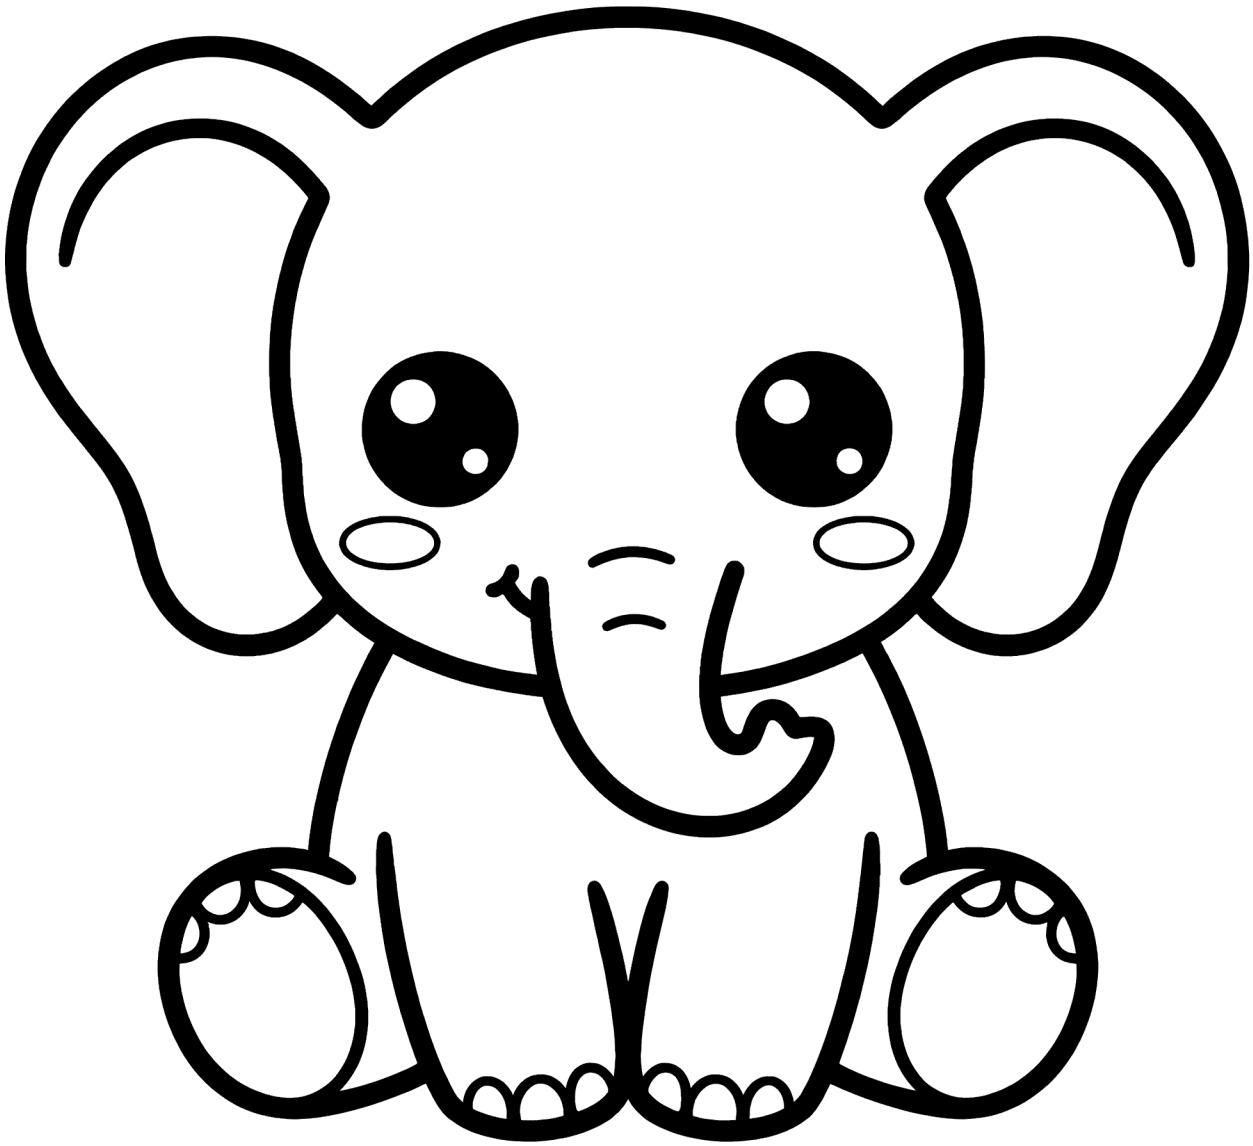

Savanna

Baby Elephant

Baby name: calf

FUN FACT

A baby elephant is called a calf. It can weigh about 200 pounds at birth, and it sometimes sucks its trunk for comfort, a little like a child sucks a thumb.

SECTION 2

Jungle & Forest

Baby Panda

Baby name: cub

FUN FACT

A newborn panda cub is pink, nearly hairless and about the size of a stick of butter. It is only about 1/900th the size of its mother!

SECTION 3

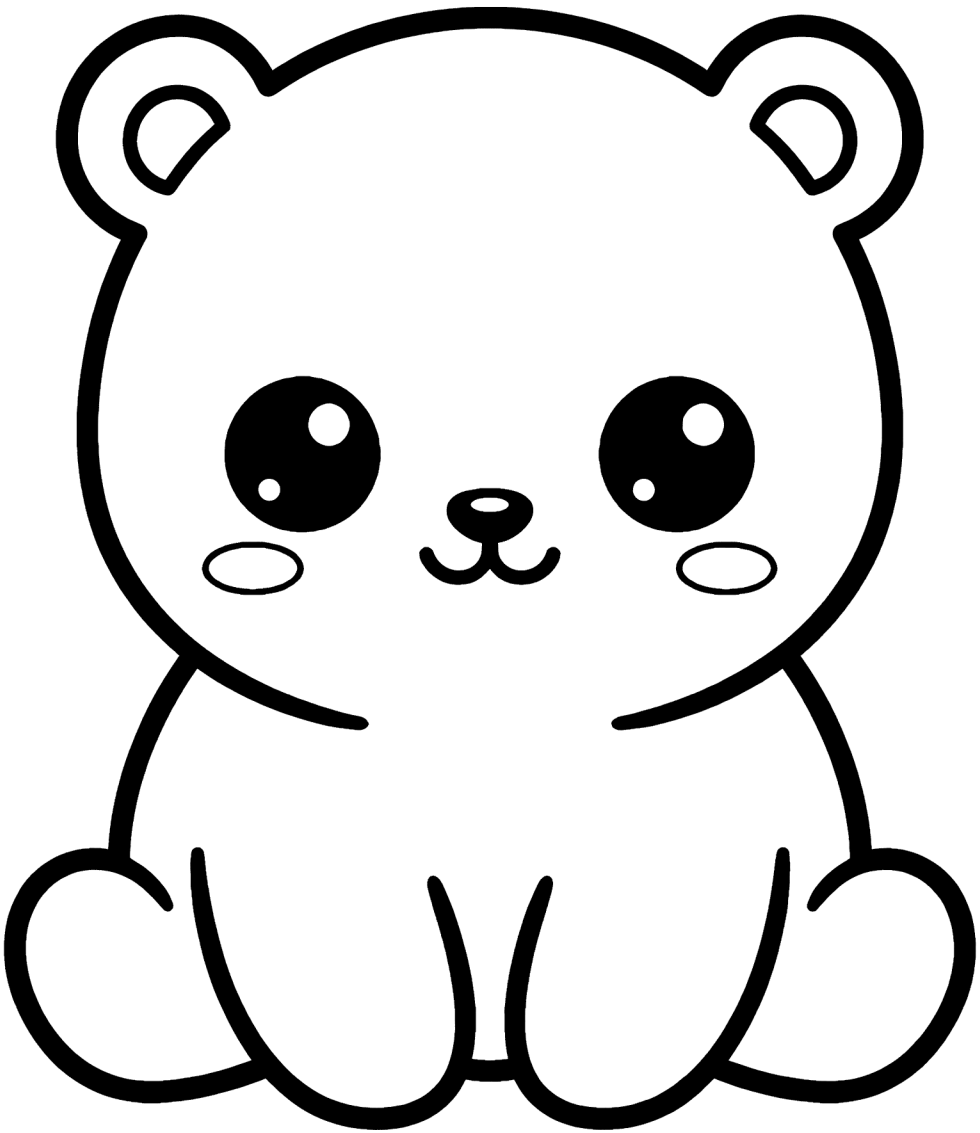

Snow & Ice

Baby Polar Bear

Baby name: cub

FUN FACT

Polar bear cubs are born in a cozy snow den in winter, weighing only about a pound. They stay inside, snuggled with mom, until spring.
