How to use this book

Every puzzle has its own page. The words are listed underneath the grid in alphabetical order, and each one appears in the grid exactly once.

The book is in three sections. In the Easy section, words run across and down only. In the Medium section they also run on the diagonal. In the Hard section they can run in any of eight directions, including backwards.

Words are printed with their spaces intact in the list — ICE CREAM, for instance — but they sit in the grid without the space, as ICECREAM.

Answers begin after the last puzzle. Each solution is numbered to match its puzzle, and every word is ringed.

There is no time limit and no score, and nothing here needs finishing today. Put it down mid-puzzle and it will wait.
